NETWORK AND SYSTEMS COORDINATOR
(PLATTSBURGH HOUSING AUTHORITY)

DISTINGUISHING FEATURES OF THE CLASS: This technical position involves responsibility for administering, planning, developing, designing, coordinating, and overseeing the computer technology functions of the Plattsburgh Housing Authority, including computer networking and website design. Services may also be contracted out to other agencies, municipalities, or entities as requested with travel required to perform duties to these off-site locations. The incumbent is also responsible for the maintenance and repair of all computers and computer related equipment. The work involves analyzing hardware and software problems, researching new products, and coordinating workshops. The work is performed under general supervision of an administrative superior with wide leeway allowed for exercise of independent judgment in carrying out technical details of the work. Supervision may be exercised over the work of subordinate personnel. The incumbent does related work as required.

TYPICAL WORK ACTIVITIES: (Illustrative only)

- Oversees the computer technology functions of an agency, including computer networking and website design;
- Responsible for installing, maintaining, and repairing a variety of other technology systems including radios, telephones, surveillance, video, etc.;
- Generates, communicates, and maintains a technology plan and vision for the agency;
- Helps interpret the agency's technology plan including the agency's acceptable use policy for employees, teachers, administrators, staff, parents, and members of the community;
- Sets up, maintains, coordinates, and performs maintenance on all computers and networks within the organization;
- Creates and maintains the organization's website;
- Maintains and manages existing computer network and assists with the planning, design, and installation of future network expansion;
- Maintains documentation for network configurations, including server configurations;
- Plans, organizes, and supervises the work of others engaged in computer operations including but not limited to: Planning. Assigning, and reviewing work, evaluating performance, maintaining work standards, implementing procedural changes, increasing efficiency, granting time off, dealing with problems of absenteeism, morale and discipline, reacting to discrepancies in time and attendance, etc.;
- Installs, configures, and maintains new, existing, and future computer workstations, including personal computers, laptops, printers, copiers, etc., as well as installing, testing, and repairing wiring, cable, fiber optics, or other peripheral aspects necessary to keep systems updated and running;
- Sets up new equipment and loads new software as appropriate and observes, maintains, and promotes the use of standards when setting up equipment;
- Provides systems analyst functions in the evaluation of software and hardware, and tests new computer hardware and software;
- Plans and implements recommendations for future purchases, enhancements, and system upgrades and may be responsible for preparing and processing bids and RFP's as needed;
- Provides on-site trouble shooting for hardware and software problems within the organization, utilizing staff and other agency/district personnel as resources during such trouble shooting;
- Maintains an inventory of all computers and computer-related equipment, monitors and coordinates repair and maintenance for such equipment, and maintains hardware repair histories and related records;
- Maintains a software library;

Network and Systems Coordinator (Plattsburgh Housing Authority)

Attends meetings of the organization's technology committee and functions in an advisory manner;
