**BUDGET**

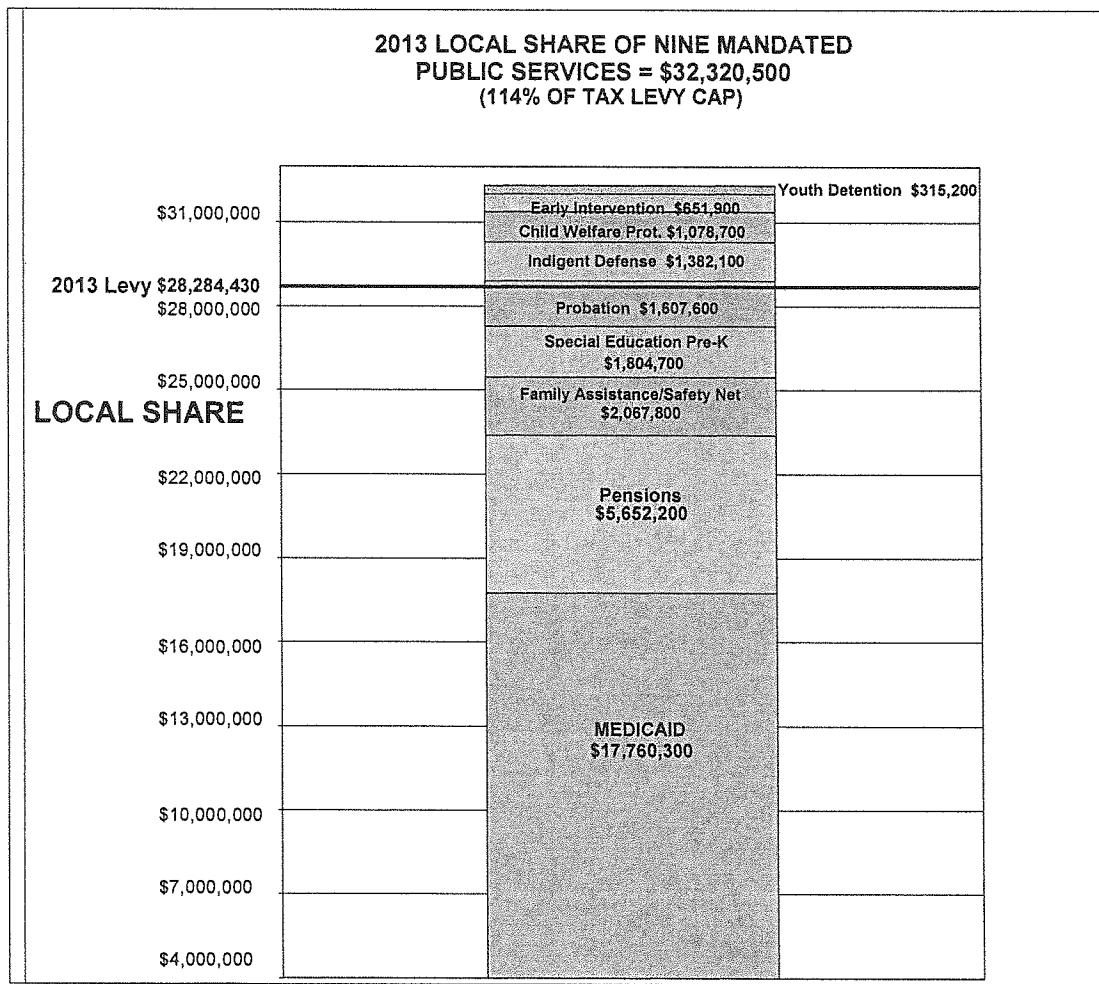

**MESSAGE**

Honorable Members of the Clinton County Legislature:

The 2013 budget process began in early August when budget forms were distributed to County Department Heads. Upon their submission to the Legislative Office, these budgets were audited for accuracy. Together with my accounting staff, I then completed a line-by-line review of all submissions and consulted with various Department Heads and/or their fiscal staff prior to making the recommendations presented herein. To this end, I would like to once again take this opportunity to publicly recognize Jean Rascoe, Legislative Office Accountant, for her diligent efforts. This document simply could not be prepared without her guidance and assistance. I would also like to express my gratitude to the County Treasurer and his staff for their counsel and revenue projections. Further, as always, it is incumbent upon me to thank County Department Heads for their willingness to discuss their respective budgets in a forthright and professional manner and accept the difficult decisions that I felt were necessary to formulate this spending plan.

2013 marks the second year in which municipal governments have to comply with the dictates of the State-enacted property tax cap. While I will continue to advocate for low property taxes and manage accordingly, any viable tax cap MUST be accompanied by mandate relief, and Albany must find a way to reconcile the tax cap with ways to pay for New York State services

that counties are required by law to fund! Once again, I regret to inform you that we have not yet seen promised mandate relief. Yes, the State has agreed to take over the **growth** in Medicaid costs over three years and has implemented a less generous pension tier for new employees, which are positive steps, but is this meaningful mandate relief? Our Medicaid bill is still \$17,760,300 and will never decrease, and any significant savings from a new Tier 6 will take decades to realize. We are on an unsustainable trajectory and, as such, we will continue to struggle to pass budgets that comply with the tax cap. To once again illustrate this dilemma, I have included the following chart which demonstrates how only nine of New York State mandates exceed the County's tax levy.

That being said, as the County Legislature not only expressed its desire to comply with the tax cap, but also directed me to recommend budget that would not require an override, the process of preparing this recommendation again proved to be most challenging. I am pleased to report, however, that the County Legislature's directive has been met and this budget is in full compliance with the tax cap and will not require an override. In fact, the budget includes a tax levy of \$28,284,430; an amount that is **1.9 percent below** the allowable limit under the property tax cap. This was possible first and foremost because the County Legislature has displayed fiscal constraint and prudent budgeting in the past. Further, there has been a concerted effort from both management and the labor force to work within the constraints of fiscal uncertainty.

In October 2012, the County was made aware of interpretations to the State's tax cap calculation that negatively affected our tax cap. These changes include:

- The available carryover -- the difference between the prior year tax cap and the actual levy for the prior year, up to one and one-half percent. Counties are now being advised that this carryover is based on the tax cap BEFORE exclusions.
- Prior year omitted taxes must now be deducted from the county tax levy in order to compute the tax cap.
- Counties must now subtract from the tax levy the total amount of sales tax that towns take as a credit to offset the county tax levy within their town. This is the state's interpretation despite Clinton County's discussions with the New York State Comptroller's Office and the Governor's Office explaining that the county levy remains the same regardless of the source of collection, that the sales tax credit is a mechanism in place for a town to pay down the county's property tax levy on behalf of its property taxpayers and is not a reduction to the county tax levy.
- Combined, these changes reduced Clinton County's tax cap by \$474,596.

For informational purposes, I have included the following table which illustrates our 2013 tax cap calculation and limit.

Although for the most part departmental budgets were in line with my directive that submissions should only include necessary items, they still resulted in a budget that includes an increased tax levy. The main reason, of course, is the cost of personnel, as it remains the single largest driving cost of all municipal budgets. In Clinton County, salaries and associated fringes which include contributions to the New York State's retirement systems, health insurance

premiums, FICA, workers' compensation and unemployment alone represent a net cost to the County of \$46.0 million. As such, we have taken and are continuing to take steps to address the issue. This budget contains 2 layoffs and the elimination of 1 position through attrition. Further, you will recall that in March, the 45 remaining full-time equivalents in the Home Care Unit retired, were hired by HCR or another employer, or were laid off. Additionally, the Personnel Committee is continuing its practice of bi-monthly meetings and thoroughly reviewing all backfill requests. This process alone has produced significant savings throughout the year.

In addition to these usual culprits, this budget also includes several other expenditures that necessitate highlighting. The first, obviously, is the County's Medicaid expense. Medicaid continues to be the largest New York State mandate placed upon Clinton County. As mentioned previously, the Medicaid cost to Clinton County taxpayers in 2013 is a staggering \$17,760,300 -- an automatic increase of \$348,237 over 2012 -- and alone will consume 62.8 percent of the tax levy. Next, there are the normal major departmental budgets:

- Health Department – an overall decrease of \$1,089,930. However, the sale of the CHHA and LTHHC operating certificates saved \$1,728,554; therefore, a year-to-year comparison absent these programs is an actual increase of \$638,600.
- Sheriff's Department – a combined increase of \$1,102,479, mainly due to personnel costs and loss of inmate boarding revenue.
- Airport – An “A Fund” transfer to “F Fund” increase of \$613,474, mainly due to personnel costs and necessary operating supplies/equipment.
- Mental Health – a combined increase of \$309,114, mainly due to the final year of a 4-year phase out of Comprehensive Outpatient Program Services funding and Medicaid reimbursement restructuring. We are continuing to monitor the escalating costs of these non-mandated services.

- Social Services – in the department that houses the aforementioned Medicaid expense and its automatic increase of \$348,237, a combined increase to the budget of only \$130,699 – a 0.5% increase -- was obtained by a thorough revenue analysis by the department.

It should also be noted that several other departmental budgets including Office for the Aging, Board of Elections, Coroner, Highway, Legal Defense, Nursing Home, Real Property and Treasurer are at or under the levy increase of 1.3 percent.

As detailed in his budget memorandum, the County Treasurer has recommended several offsets to the 2013 budget. The largest, of course, is sales tax revenue. As has been reported, analysis of sales tax receipts from 2012 indicates that Clinton County will exceed its budgeted projection. This is obviously welcomed news, and marks the second straight year in which we have seen this dynamic. You may recall that we did not meet projections in either 2009 or 2010 which placed greater pressure on the fund balance in those years. Based on this information, together with a local market analysis and a strong Canadian dollar, it is with cautious optimism that the Treasurer is projecting total sales tax revenue at \$50,000,000 for 2013; an increase of \$2 million. Using this projection, Clinton County would receive \$21,665,000 based on existing distribution formulas and \$12,500,000 from the additional 1 percent for a total of \$34,165,000; an increase of \$1,475,000. The Treasurer's memorandum also includes a \$1,032,325 -- down from \$1.8 million in 2012 -- transfer from the Tax Stabilization Fund that was created in 2011 to offset budgets into the future. Another revenue offset that should be mentioned is the all important general fund's unreserved fund balance. This budget includes an unreserved fund balance contribution of \$2,000,000; the same amount as in 2012. This is a reasonable number that does not jeopardize the stability of the County's fiscal position and allows the fund balance

to remain well within the Comptroller's recommendation. Lastly, this is the first of four years in which HCR revenue -- \$322,500 in 2013 -- will be included to reduce the tax levy.

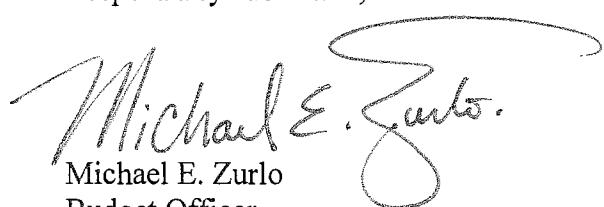

Total appropriations submitted in the initial 2013 budget requests were \$160.6 million and were offset by revenues in the amount of \$128.7 million. Approval at this level would have resulted in a tax levy of \$31.9 million; a \$4 million increase or an untenable 14.3 percent over the 2012 tax levy. Further, this would have exceeded the tax cap by over \$3.1 million or 10.8 percent. The resulting gross tax rate at the requested level would have been \$6.85 per \$1,000 of assessed value compared to the 2012 level of \$6.05 per \$1,000. The difference of \$.80 would have resulted in a tax rate increase of a 13.2 percent and would have necessitated passage of a local law to override the tax cap. These numbers were simply unacceptable and not in line with the Legislature's directive to me to stay within the tax cap.

Therefore, after thoroughly reviewing each departmental budget request, examining revenue projections and working with the County Treasurer to identify offsets from fund balances and reserves, several actions were taken to significantly enhance the 2013 budget picture. As such, the budget contains total appropriations of \$155.7 million and revenues of \$127.4 million. The resulting gross tax rate now stands at \$6.07 per \$1,000 of assessed value. This compares to the 2012 gross tax rate of \$6.05 and results in an increase of 0.3 percent. **Further, as mentioned earlier, the levy stands at \$28,284,430 which is \$536,901 or 1.9 percent below the allowable tax cap amount.**

As I opined in last year's budget message, formulating a spending plan as we continue to operate within a fragile economic environment, contend with high unemployment – 9.1 percent in latest report from the New York State Department of Labor -- and are forced to deal with New

York State's failure to relieve county governments of onerous mandates to carry out their initiatives is becoming increasingly demanding. Although we again met the tax cap, sustaining this dynamic in the future will simply not be attainable unless we see meaningful mandate relief. Unfortunately, the Governor has recently acknowledged that tackling mandates is not a priority of his administration and that it is up to local governments to "make the tough choices." I would argue that we have, in fact, done just that. Operating budgets are razor thin, local non-mandated programs and services are being reduced -- Home Care sale and Clinton County Public Transit route reduction -- and contract agencies have seen little or no increases in recent years. Further, although sales tax is showing positive signs, it would be irresponsible to assume it will be a panacea each year. As such, we must continue to work with the New York State Association of Counties and advocate for relief even though Albany is providing a lukewarm environment in which to do so. That being said, the 2013 Budget is balanced and meets both our fiduciary responsibilities and our moral obligations in a manner that does not leave the County in a precarious fiscal situation or overburden the county taxpayer.

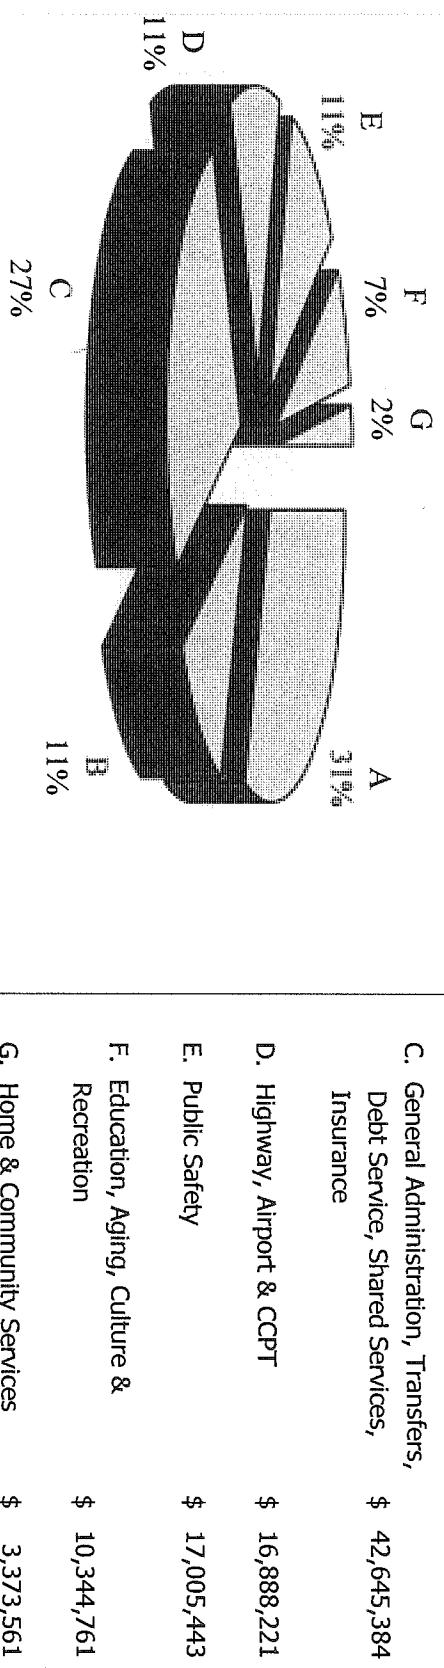

Respectfully submitted,

Michael E. Zurlo  
Budget Officer
