COUNTY OF CLINTON)
          :SS
STATE OF NEW YORK)

August 24, 2022

       Stenographer's minutes of the Regular Session of the Clinton County Legislature held Wednesday, August 17, 2022 in the Legislative Chambers, 137 Margaret Street, Plattsburgh, New York.

PRESENT:	David Bezio, Area 4
	Calvin Castine, Area 1
	Robert Hall, Area 10
	Mark Henry, Chairperson, Area 3
	Wendell Hughes, Area 8
	Joshua Kretser, Area 9
	Francis Peryea, Area 2
	Richard Potiker, Area 5
	Rob Timmons, Area 7
EXCUSED:	Patty Waldron, Area 6
ALSO PRESENT:	Michael Zurlo, County Administrator
	Kim Kinblom, Deputy County Administrator
	Gary Favro, Assistant County Attorney

Chairperson Henry called the meeting to order at 5:15 p.m.

Michael Zurlo, the County Administrator, conducted roll call. Legislator Waldron asked to be excused.

Legislator Hughes motioned to accept the minutes of the July 13, 2022 Regular Session and the August 3, 2022 Special Session, seconded by Legislator Kretser. Carried (9-0-1).

Chairperson Henry stated at this time, the Legislature will pause in its deliberations to introduce a special guest, Stephen Acquario, the Executive Director of the New York State Association of Counties (NYSAC). Chairperson Henry noted accompanying Mr. Acquario are his wife, Lisa and his son, Stephen Jr. Chairperson Henry stated to have friends you need to be a friend and Clinton County has no better friend than Mr. Acquario. Chairperson Henry lauded the many accomplishments Mr. Acquario has made for Clinton County and the 62 counties around the State. As such, Chairperson Henry presented Mr. Acquario with the inaugural "You are a 10!" award for his exemplary public service to Clinton County. Chairperson Henry provided a brief overview of the history of the award. Mr. Acquario thanked his wife, Lisa and son, Stephen, the Board, the members of the audience and his dear friend County Administrator Michael Zurlo. Mr. Acquario also announced that Mr. Zurlo will be the President (of the NYSAC Board) beginning in September, 2022 representing all 62 counties of New York State and is confident in Mr. Zurlo's ability to lead NYSAC.

Chairperson Henry asked if anyone wished to address the Legislature.

Beth Ashebranner, of 20 Lynde Street, Plattsburgh, New York, reviewed the New York Voter Matrix: An Alternate Structure within Voter Rolls Report to the Legislature (which has been attached and made part of the minutes.) She also reviewed a timeline of the actions of the New York Citizens Audit (NYCA). Ms. Ashebranner inquired about the resolution she brought forth to the Legislature.

Chairperson Henry stated the Clinton County Legislature is a deliberatory body and not an investigatory body, and the Legislature has listened to Ms. Ashebranner's concerns on three separate occasions and has reviewed the information. He continued by stating the Legislative Board has decided to leave the determination of the law and facts (and Ms. Ashebranner's ability to defend her rights) to the Attorney General of New York and the New York State Board of Elections Commissioners. As such, the Clinton County Legislature will not adopt the resolution put forth by Ms. Ashebranner.

Beth Cane-Winter, of Keeseville, New York, stated she has worked for 10 years at the Clinton County Nursing Home. She is concerned if the stay-pay that was discussed on Thursday, July 14th will be distributed by December 31, 2022 if the Nursing Home is not sold by that date. She is requesting the Clinton County Personnel Department be forthcoming and transparent with the information. She is also inquiring on the New York State Health Care Worker Bonus provided by New York State and she is once again requesting more information from the Personnel Department be communicated. The deadline for that submission to the State is Friday, September 2, 2022. Ms. Winter's third concern is the pay raise occurring on January 1, 2023. She expressed her frustration regarding this issue when the Nursing Home has been told for years that there were no funds available for nurses' aides or for recruiting staff. She is encouraging more communication be distributed to the dedicated workers of the Clinton County Nursing Home.

Chelsea Warick, a former Deputy for the Clinton County Sheriff's Department, was present to discuss her treatment by the Sheriff's Department. She stated she has received many forms of harassment by the Department. She stated she was passed over for promotions and trainings due to her gender. She is requesting the County remove the employment clause of the Sheriff's Department of "not making any statements that discredit the Sheriff or the Department." She also encouraged the Board to view her

Facebook post regarding her harassment and encouraged the Board to reach out to her if they would like to discuss further. Lastly, she called for the Sheriff's resignation.

Aaron Fung, of Ausable Forks, New York, a 911 dispatcher for Clinton County, stated the treatment of Chelsea Warick bothers him, as she took care of the public as a public servant. He requested the Board and Staff protect Chelsea's rights and request an investigation of the situation, and to look at the reason why Clinton County is losing employees. He believes it is the result of bad policy and bad management.

There being no one else to address the Legislature, Chairperson Henry moved on to Committee Reports.

Buildings and Grounds Committee – Legislator Bezio

Legislator Bezio reported the Buildings and Grounds Committee meeting scheduled for August 8th was cancelled.

The next Buildings and Grounds Committee meeting is tentatively scheduled for Monday, September 26th at 4:30 p.m.

Children and Family Services Committee – Legislator Potiker

Legislator Potiker reported the Children and Family Services Committee met on Tuesday, August 2nd.

John Redden, the Commissioner of Social Services, was present to discuss several resolutions including "Authorizing Memorandum of Understanding (MOU) with 1814 Commemoration, Inc." and "Authorizing Contract with the Clinton County Office for the Aging." Mr. Redden also discussed the monthly statistics for June, 2022, homeless housing and personnel.

Resolutions #524 through #527 have been placed on the agenda as a result of the Committee's recommendation.

The next Children and Family Services Committee meeting is tentatively scheduled for Tuesday, September 6th at 5:15 p.m.

Economic Development and County Operations Committee – Legislator Waldron

On behalf of Legislator Waldron, Mr. Zurlo reported the Economic Development and County Operations Committee met on Wednesday, August 10th.

Glen Cutter, the Planning Director, was present to discuss the resolution, "Authorizing the Clerk of the Clinton County Legislature to Advertise for a Public Hearing Regarding the Status of Grant #250HO369-19 from the New York State Housing Trust Fund Office of Community Renewal."

Rodney Brown was also present to provide an update on the C-Big Project.

Resolutions #528 through #530 have been placed on the agenda upon the recommendation of the Committee.

The next Economic Development and County Operations Committee meeting is tentatively scheduled for Wednesday, September 14th at 4:00 p.m.

Finance Committee – Legislator Timmons

Legislator Timmons reported the Finance Committee met on Wednesday, August 3rd.

Kimberly Davis, the County Treasurer, was present to discuss sales tax, occupancy tax and the resolution "Authorizing Ongoing Contract with three+one."

Sara Dayton and Seth Hennard of Lumsden & McCormick presented on the 2021 Audit.

John Kowal, the President of Clinton Community College, provided a presentation on the 2022-2023 Budget.

Sean Lukas, of Casella Waste Systems, Inc. presented on a potential food waste composting PILOT at the Sand Road Facility.

The Lake Champlain/Lake George Regional Planning Board Budget and Salary Schedule approval for 2023 was also discussed.

Resolutions #531 through #535 have been placed on the agenda as a result of the Committee's recommendation.

The Committee was also polled on Resolution #536.

The next Finance Committee meeting is tentatively scheduled for Wednesday, September 7th at 5:15 p.m.

Health Committee – Legislator Hughes

Legislator Hughes reported the Health Committee met on Wednesday, August 3rd.

Richelle Gregory, the Director of Community Services, was present to discuss the resolution, "Authorizing Contract Amendment with Innovatel, LLC."

Jeff Sisson, the Director of Public Health, was also present to discuss several resolutions including, "Authorizing Contract Amendment with Teletask, Inc." and "Authorizing Contract with Healthie, Inc." Mr. Sisson also discussed the Director's Report for June, 2022, the Health Department Report for July, 2022 and the Public Health Connection Newsletter for July, 2022.

Resolutions #537 through #539 have been placed on the agenda as a result of the Committee's recommendation.

The Committee was also polled on Resolution #540.

The next Health Committee meeting is tentatively scheduled for Wednesday, September 7th at 4:15 p.m.

Human Services Committee – Legislator Peryea

Legislator Peryea reported the Human Services Committee met on Tuesday, August 2nd.

Darleen Collins, the Director of Office for the Aging, was present to discuss the resolution, "Authorizing Contract with MHAB" and statewide initiatives.

4

Wendie Bishop, the Nursing Home Administrator, was present to discuss the resolution, "Authorizing Payment of Renewal Certification and Membership Dues."

Kevin LeBoeuf, the Director of the Veterans' Service Agency, was present to discuss monthly statistics for July, 2022.

Resolutions #541 and #542 have been placed on the agenda as a result of the Committee's recommendation.

The next Human Services Committee meeting is tentatively scheduled for Tuesday, September 6th at 4:15 p.m.

Personnel Committee – Legislator Henry

Legislator Henry reported the Personnel Committee met on Monday, August 1st.

Resolutions #543 through #562 have been placed on the agenda as a result of the Committee's recommendation.

The Committee was also polled on Resolution #563.

The next Personnel Committee meeting is tentatively scheduled for Monday, September 12th at 5:00 p.m.

Plattsburgh International Airport Committee – Legislator Hall

Legislator Hall reported the Plattsburgh International Airport Committee met earlier.

Chris Kreig, the Airport Director, was present to discuss several resolutions including, "Authorizing Contract with Environmental and Fueling Systems, LLC" and "Authorizing Lease Agreement with Paramount Enterprise International, Inc."

Resolutions #564 through #579 have been placed on the agenda as a result of the Committee's recommendation.

Resolution #629 has also been placed on the agenda under Waive Rule 13.2.

The next Plattsburgh International Airport Committee meeting is tentatively scheduled for Wednesday, September 28th at 4:00 p.m.

Public Safety Committee – Legislator Castine

Legislator Castine reported the Public Safety Committee met on Monday, August 1st.

Sheriff Dave Favro was present to discuss several resolutions including, "Authorizing Various Contracts for the Year 2023" and "Awarding Bid for Utility Terrain Vehicle (UTV), Trailer and Tracks."

Jami Rock, the Administrative Assistant at the Child Advocacy Center (CAC), was also in attendance to discuss several resolutions including, "Authorizing Charles R Wood Grant Application" and "Authorizing Various Contracts."

Resolutions #580 through #591 have been placed on the agenda as a result of the Committee's recommendation.

The Committee was also polled on Resolutions #592 through #594.

The next Public Safety Committee meeting is tentatively scheduled for Monday, September 12th at 4:00 p.m.

Transportation Committee – Legislator Kretser

Legislator Kretser reported the Transportation Committee met on Monday, August 8th.

Shannon Thayer, the Senior Planner for Clinton County Public Transit (CCPT), was present to discuss increasing the driver starting wage and resolutions, "Authorizing Contract with Johnson Controls Fire Protection, LP" and "Authorizing Rural Transit Assistance Program (RTAP) Scholarship Grant Application and Acceptance."

Karl Weiss, the Highway Superintendent, was also present to discuss several resolutions including, "Authorizing Preserve New York Grant Acceptance" and "Authorizing Contract with Foit-Albert Associates."

Resolutions #595 through #598 have been placed on the agenda upon the recommendation of the Committee.

The next Transportation Committee meeting is tentatively scheduled for Monday, September 26th at 5:15 p.m.

LIAISON REPORTS

Board of Health – Legislator Potiker

Legislator Potiker reported the Committee is actively seeking a replacement for the President of the Board. He noted George Miller is currently acting president and the Committee will meet on Monday, August 29th at 7:00 p.m.

Cooperative Extension – Legislator Timmons

Legislator Timmons distributed a handout to the Board regarding the itinerary of the Agricultural Tour on Friday, September 16th.

Discipline Review – Legislators Henry and Hall

Legislator Henry stated the Committee will meet on Friday, August 19th and Thursday, September 1st to review two complaints.

Soil and Water – Legislators Peryea and Timmons

Legislator Timmons stated the next meeting is scheduled for Thursday, August 18th.

STAFF REPORTS

Assistant County Attorney – Gary Favro, Esq.

Mr. Favro did not have a report.

County Administrator – Michael Zurlo

Mr. Zurlo did not have a report.

Chairpersons Report

Chairperson Henry did not have a report.

There being no further business, Chairperson Henry moved on to resolutions. The following resolutions were approved unless otherwise noted.

Resolutions #524 through #577 were approved.

Resolution #578 titled, "Authorizing Contract with Lee Kitchen Carpet and Appliance Center" was motioned by Legislator Hall and seconded by Legislator Hughes. Carried (9-0-1).

Discussion: Mr. Zurlo noted the resolution states $0 for the County cost but the County must pay the amount up front and then will seek reimbursement from the Federal Government. As such, there is no cost to the County.

Resolutions #579 through #605 were approved.

Resolution #606 titled, "Authorizing the County Treasurer to Establish Appropriation and Corresponding Revenue for 2022 Workforce Innovation and Opportunity Act (WIOA) Various Program Grants" was motioned by Legislator Timmons and seconded by Legislator Potiker. Carried (9-0-1-1).

Discussion: Legislator Kretser abstained.

Resolutions #607 through #625 were approved.

Resolution #626 titled, "Authorizing Contract with Senior Living Investment Brokerage d/b/a SLIB, Inc. Brokerage" was motioned by Legislator Timmons and seconded by Legislator Hughes. Carried (9-0-1).

Discussion: Mr. Zurlo stated this contractor is doing a great job and is accomplishing more than the County officials could have.

Resolutions #627 and #628 were approved.
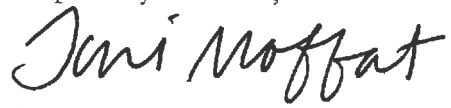

Legislator Hall motioned to Waive Rule 13.2, seconded by Legislator Hughes. Carried (9-0-1).

Resolutions #629 was approved.

There being no further business to come before the Legislature, Legislator Hall motioned to adjourn the meeting at 6:46 p.m., seconded by Legislator Timmons. Carried (9-0-1).

Respectfully submitted,

Toni Moffat
Executive Secretary to the County Treasurer

New York's Voter Matrix: An Alternate Structure Within Voter Rolls

Posted By *Andrew Paquette* On August 13, 2022 @ 11:14 am In News and Commentary | 3 Comments

Sometimes, you run into something so out of place that you have to ask yourself, how did that get there? A boat in the desert, A fossilized battery, crop circles, and now, New York's voter rolls.

New York Citizens Audit [1] (NYCA) is an all volunteer group of individuals who have been studying the 2020 General Election [2] since last August. After a year's worth of effort, they have made some impressive findings. They have discovered hundreds of thousands of cloned voter records [3], examples of identity theft [3], discrepancies [4] between official vote counts, over a hundred thousand registered voters without an address, and more. [5]

Today, an NYCA representative appeared on True the Vote's "vital strategy session," "The Pit," [6] and dropped something truly strange: **There is a pattern embedded in the identification numbers assigned to voters.**

How did it get there, and why?

The pattern, dubbed "The Voter Matrix" by NYCA, creates an alternate structure within the voter rolls. The details are complicated but the effect is simple: **It makes nefarious manipulation of records possible.**

The Voter Matrix presents the possibility that no amount of "cleaning the rolls" or "purging records" can fix the problem, because the Matrix can regenerate phantom voters all day long.

The pattern is well-hidden. It is unlikely that anyone would have found it in the normal course of business. Experts consulted for this article were amazed that it was found at all. Last year, NYCA submitted a Freedom of Information Law (FOIL) request to the New York Board of Elections for New York's voter rolls. A few months later, the BOE delivered the rolls on a DVD. If one were to open the nine-gigabyte text file and look at it as-is, the pattern would be invisible, though it is sitting right there in plain sight, as seen in the image below.

Compliments of NYCA

The size and format of the voter roll document make it extremely difficult to view directly. Instead, it must be converted to another format. It

cannot be opened in Excel because it is too large. Database software can deal with it, provided it is resident on a powerful enough computer.

Workers at the local BOE in any given county likely do not have the database on their computer, as they instead login it on a network. All of these things interfere with viewing the document in the state it was in when delivered to NYCA. To make it worse, the pattern is highly dependent on the idiosyncratic sort order the data appears in on the original disk. Once anyone filters or sorts the data, something they are likely to do every time they interact with the database, the pattern is destroyed and cannot be recovered.

NYCA decided to call the pattern "The Voter Matrix" because it restructures state and county voter ID numbers (SBOEID [7] and CID numbers, respectively) into a well-defined and complex matrix. Programmers working with NYCA have managed to reproduce it. According to them, it is mathematically sophisticated. Whoever designed it was good at his job and likely very well-paid.

Viewed from within a database app, the Matrix is only visible if the original sort order hasn't been destroyed (unlikely), a sufficient number of consecutive records are selected for viewing, and the records selected are the right records (also unlikely). It would help if you were looking for the pattern. If not, you might miss it for that reason alone.

It is possible to see parts of the Matrix after destroying the original sort order but it would be a misleading shadow of the original. The reason is that you wouldn't see the right pattern. You would see a pattern and it is interesting but the Matrix itself is gone.

The image below shows a small section of the Matrix as seen in four different New York Counties:

SBOEID	Short ID	SBOEID Gaps
00000000000091767	9,091,767	-230,434
00000000009119545	9,119,545	27,778

Compliments of NYCA

The Matrix is created by first linking the sort order of SBOEID (State Board of Elections ID) numbers to the sort order of CID numbers. That way, if you sort the SBOEID numbers by themselves, you will destroy the Matrix. To see the pattern in the SBOEID numbers, you have to sort by CID numbers instead. It's like turning your steering wheel right to turn left: not intuitive.

The second step generates SBOEID numbers a pre-determined space apart. For instance, the numbers "1" and "12" are 11 numbers apart. That gap value between the numbers is the hidden key to the Matrix. The gap values literally don't exist anywhere in the database. There is no field for them. If you want to see them, you have to calculate the values yourself, between every pair of 20,765,242 records. If you haven't sorted the records correctly, all of your calculations will be wrong and the pattern will be either destroyed (not visible) or deformed (incorrect).

And by the way, if you sorted the records at all, you've destroyed at least part of the Matrix. The key to this booby-trap embedded in the Matrix are alphanumeric CID numbers.

Not all CID numbers are alphanumeric. Some are, some aren't. The problem posed by these numbers is that no spreadsheet or database program will sort them together. However, they must be to preserve the Matrix. This is because the alphanumeric CID numbers are interlaced with numeric values. The only way to position them in the right places is to literally place them there.

This can only be done if you know where they belong to begin with. That can only be accomplished by using the custom app that put them there, which you can see below.

10

Compliments of NYCA

The CID numbers have at least two other peculiarities. The first is that letters in the alphanumeric CID numbers are assigned specific numeric values. The letter "M", for instance, stands for an 11 or 12 unit gap between each consecutive M. The letter "C" represents the end of a group of 111 or 112 numbers, and the letter "B" stands for a gap of 11,111.

The second peculiarity is that about 75% of all alphanumeric CID numbers were registered on New Year's Day. In New York County alone, over 121,000 of 143,000 alphanumeric CID numbers have a January 1st registration date. That is over 10% of the active registered population of New York County. Other counties are similar.

NYCA has identified five distinct matrices in New York's 62 counties. One, dubbed "The Spiral," is used in 52 counties. That is the matrix used for examples in this article. There are also the "Reverse Spiral" (five counties), "The Metronome" (four counties), "The Blur" (one county), and "The Tartan" (40% of each county in the state). Each Matrix has built-in variations that interfere with any attempt to easily understand or visualize what it is doing.

For instance, the Spiral Matrix starts by separating each consecutive number by 11,1111. Then, it punctuates every tenth "11,111" with "11,112" (11,111 +1). After this has cycled a few times, it switched to "1,111" and "1,112" every tenth record. This runs for hundreds of

entries, then thousands, then switches to "111" and "112", and so on. In between, it throws in odd numbers that seem out of place, like "27,778" or "833". All of these numbers belong to a family of numbers known to mathematicians as "RepUnits".

A RepUnit is any number of 2 or more digits where each digit is the same as all the rest. For instance, the numbers "11", "111", "1,111", and "11,111" are all RepUnits of "1". In the same way, "22", "333", and "4,444" are RepUnits of the numbers 2, 3, and 4, respectively. The numbers 27,778 and 833 are not RepUnits themselves but they are both related to RepUnits of "1". The number 27,778 is 25% of 111,111 (rounded) and 833 is 75% of 1,111 (rounded. NYCA calls these numbers "quarter RepUnits" and a "triple quarter RepUnit". Quarter and triple quarter RepUnits are used to mark the end of a group of 10 RepUnits and the start of the next highest RepUnit, like changing from 1,111 to 11,111.

The Matrix is built into the voter roll records of every county in New York. This is a fact. Any person with access to the rolls can see for themselves as long as they know what to look for. It is very hard to find but once it is known, very easy to see. These two qualities are essential to any successful implementation of steganography, and that is what this is.

"Steganography" is similar to cryptography, where a message is disguised by changing its content based on a set of rules. For instance, exchanging the number "11,111" with the letter "B", and the number "111" with the letter "C". That is simple cryptography. Steganography goes a step further, by hiding the fact that there is a message. The Spartan king Demaratus once scraped the wax off of a writing tablet, wrote a message to his city on the wood underneath, then replaced the wax and sent it past guards outside a city. They did not suspect the blank tablet contained a warning to inhabitants of the city and let it through their checkpoint.

Voter rolls are public. They cannot be hidden without violating public access laws. Moreover, they cannot be encrypted (at least, not obviously) without violating those same laws. If there is a need to hide information within the voter rolls, the only way is to use steganographic methods. The question is why?

NYCA tried to identify a legitimate purpose for the Matrix. Their top contenders were all related to database optimization. The problem is that no legitimate scheme would include falsifying data in the database, and that is what New Year's Day registration dates look like. This, they hasten to add, isn't simply because the dates are on their face false, it is because those dates are linked to essential components of the Matrix: the alphanumeric CID numbers. The linkage of those dates with those specific numbers makes a legitimate explanation unlikely.

As for nefarious reasons, one immediately came to mind. By restructuring voter identification numbers into a well-defined matrix structure, it becomes possible to place, track, and interact with phantom registrations. Is that what is going on?

One source I consulted for this article not only agreed that is what is happening, he said he'd seen it before, with the same patterns made out of RepUnits. According to him, he saw it in the **Middle East**. The purpose, according to him, was to "**control elections. I never expected to see it in America.**"

The Matrix found within New York's voter rolls closes the loop started with ballot trafficking, as seen in the movie "2,000 Mules." For trafficked ballots to have any effect, they must be counted. To prevent an overcount, the vote count must match the voter count. To do that, phantom registrations are needed.

We know from 2,000 Mules that fake ballots were counted in the 2020 General Election. We know from research conducted by NYCA that large numbers of phantom voters are present in the voter rolls. The only piece missing from this puzzle is a way to clandestinely access the phantom voter records.

The problem is similar to that faced by a pirate captain. He has stolen a ship full of treasure and must hide it. He buries the treasure on several small islands. If he doesn't make maps to identify where the treasure is buried, he may as well have thrown it into the sea. The same problem exists here. The phantom voter records must be hidden so they cannot be discovered by others but they must be easy to find for the people who put them there.

The Voter Matrix can solve that problem. **It creates a hidden structure within the ID numbers.** That structure can be accessed by an external app that understands the Matrix. It uses the repositioned numbers to determine which can be safely interacted with (phantoms) and which cannot (legitimate records). This is what NYCA has found. Anyone with access to the voter rolls can see it.

New York SBOEIDs per County
Source: NYS Voter Rolls Oct. 21,2021

These results are based on the AllNY database.

All Rows are for Date of Birth and First and Last Names with more than one SBOEID.

In some cases, these may be actual people who have the same name and Date of Birth.

It's unlikely that this occurs frequently, so all these records are suspect and should be investigated.

NOTE: In some cases, extra IDs appear in different counties.

Results will be smaller if you only look for extra IDs in individual counties.

Of the 615906 total database rows with more than one SBOEID per Date of Birth and First and Last Name across NY State this table provides a breakdown of the number of rows per county.

Communist Goals (1963)

Congressional Record--Appendix, pp. A34-A35

January 10, 1963

Current Communist Goals

EXTENSION OF REMARKS OF HON. A. S. HERLONG, JR. OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, January 10, 1963

Mr. HERLONG. Mr. Speaker, Mrs. Patricia Nordman of De Land, Fla., is an ardent and articulate opponent of communism, and until recently published the De Land Courier, which she dedicated to the purpose of alerting the public to the dangers of communism in America.

At Mrs. Nordman's request, I include in the RECORD, under unanimous consent, the following "Current Communist Goals," which she identifies as an excerpt from "The Naked Communist," by Cleon Skousen:

[From "The Naked Communist," by Cleon Skousen]

CURRENT COMMUNIST GOALS

1. U.S. acceptance of coexistence as the only alternative to atomic war.

2. U.S. willingness to capitulate in preference to engaging in atomic war.

3. Develop the illusion that total disarmament [by] the United States would be a demonstration of moral strength.

4. Permit free trade between all nations regardless of Communist affiliation and regardless of whether or not items could be used for war.

5. Extension of long-term loans to Russia and Soviet satellites.

6. Provide American aid to all nations regardless of Communist domination.

7. Grant recognition of Red China. Admission of Red China to the U.N.

8. Set up East and West Germany as separate states in spite of Khrushchev's promise in 1955 to settle the German question by free elections under supervision of the U.N.

9. Prolong the conferences to ban atomic tests because the United States has agreed to suspend tests as long as negotiations are in progress.

10. Allow all Soviet satellites individual representation in the U.N.

11. Promote the U.N. as the only hope for mankind. If its charter is rewritten, demand that it be set up as a one-world government with its own independent armed forces. (Some Communist leaders believe the world can be taken over as easily by the U.N. as by Moscow. Sometimes these two centers compete

16

with each other as they are now doing in the Congo.)

12. Resist any attempt to outlaw the Communist Party.

13. Do away with all loyalty oaths.

14. Continue giving Russia access to the U.S. Patent Office.

15. Capture one or both of the political parties in the United States.

16. Use technical decisions of the courts to weaken basic American institutions by claiming their activities violate civil rights.

17. Get control of the schools. Use them as transmission belts for socialism and current Communist propaganda. Soften the curriculum. Get control of teachers' associations. Put the party line in textbooks.

18. Gain control of all student newspapers.

19. Use student riots to foment public protests against programs or organizations which are under Communist attack.

20. Infiltrate the press. Get control of book-review assignments, editorial writing, policymaking positions.

21. Gain control of key positions in radio, TV, and motion pictures.

22. Continue discrediting American culture by degrading all forms of artistic expression. An American Communist cell was told to "eliminate all good sculpture from parks and buildings, substitute shapeless, awkward and meaningless forms."

23. Control art critics and directors of art museums. "Our plan is to promote ugliness, repulsive, meaningless art."

24. Eliminate all laws governing obscenity by calling them "censorship" and a violation of free speech and free press.

25. Break down cultural standards of morality by promoting pornography and obscenity in books, magazines, motion pictures, radio, and TV.

26. Present homosexuality, degeneracy and promiscuity as "normal, natural, healthy."

27. Infiltrate the churches and replace revealed religion with "social" religion. Discredit the Bible and emphasize the need for intellectual maturity which does not need a "religious crutch."

28. Eliminate prayer or any phase of religious expression in the schools on the ground that it violates the principle of "separation of church and state."

29. Discredit the American Constitution by calling it inadequate, old-fashioned, out of step with modern needs, a hindrance to cooperation between nations on a worldwide basis.

30. Discredit the American Founding Fathers. Present them as selfish aristocrats who had no concern for the "common man."

31. Belittle all forms of American culture and discourage the teaching of American history on the ground that it was only a minor part of the "big picture." Give more emphasis to Russian history since the Communists took over.

32. Support any socialist movement to give centralized control over any part of the culture--education, social agencies, welfare programs, mental health clinics, etc.

33. Eliminate all laws or procedures which interfere with the operation of the Communist apparatus.

34. Eliminate the House Committee on Un-American Activities.

35. Discredit and eventually dismantle the FBI.

36. Infiltrate and gain control of more unions.

37. Infiltrate and gain control of big business.

38. Transfer some of the powers of arrest from the police to social agencies. Treat all behavioral problems as psychiatric disorders which no one but psychiatrists can understand [or treat].

39. Dominate the psychiatric profession and use mental health laws as a means of gaining coercive control over those who oppose Communist goals.

40. Discredit the family as an institution. Encourage promiscuity and easy divorce.

41. Emphasize the need to raise children away from the negative influence of parents. Attribute prejudices, mental blocks and retarding of children to suppressive influence of parents.

42. Create the impression that violence and insurrection are legitimate aspects of the American tradition; that students and special-interest groups should rise up and use ["]united force["] to solve economic, political or social problems.

43. Overthrow all colonial governments before native populations are ready for self-government.

44. Internationalize the Panama Canal.

45. Repeal the Connally reservation so the United States cannot prevent the World Court from seizing jurisdiction [over domestic problems. Give the World Court jurisdiction] over nations and individuals alike.
