BACKGROUND

The New York State Office of Addiction Services and Supports (OASAS) is responsible for monitoring and oversight of Opioid Settlement Funds; including the Regional Abatement funds distributed to Local Governmental Units. The \$64 million dollars in abatement funds are being made available to counties through the Local Governmental Unit (LGU). The Regional Abatement amounts are calculated based on a formula using population, overdose death rates, mental health and other indicators.

The Opioid Settlement Fund Advisory Board identified OASAS priorities and allowable uses of the resources, which should be considered when utilizing the funding, see Schedule C. Three main areas were identified as service integration to best treat co-occurring disorders, service equity, and meaningful evaluation that demonstrates reduced suffering and positive impacts on the social determinant of health.
